

A basketball hoop and net are visible in the upper left corner of the image, set against a red-tinted background of a basketball court.

FIBA IOT MANUAL CHANGES & NEW SIGNALS

IMPLEMENT IMMEDIATELY

VALID AS OF 16 May 2022

Published May 16, 2022

IOT UPDATE – WARNING WHISTLE

FIBA UPDATES TO IOT MANUAL – IMPLEMENTATION IMMEDIATE

FIBA HAS UPDATED THE IOT MANUAL – WARNING WHISTLES

A “warning whistle” should occur when:

- prior to the **crew chief (CC) entering the jump circle** for the jump ball to start the game;
- prior to ball being **placed at the disposal of the thrower-in** at the start of each new quarter or overtime
- prior to ball being **placed at the disposal of the thrower-in on a frontcourt endline throw-in**
- prior to ball being **placed at the disposal of the thrower-in to restart the game after a time-out**

IOT UPDATE – 3 POINT SHOT

FIBA UPDATES TO IOT MANUAL – IMPLEMENTATION IMMEDIATE

FIBA HAS UPDATED THE IOT MANUAL – MECHANICS

The correct mechanic on a 3 point shot is:

- **only the primary referee** (trail or center) signals a 3-point attempt
 - the other **outside referee** (trail or center) **does not mirror** the attempt
 - in dual coverage area both outside referees (trail and centre) **may** signal the attempt
- if the basket is **made both outside referees** (trail and centre) signal the successful basket

OBR2022 SIGNALS

CYLINDER PLAY

Both arms with hands vertical
moving up and down

Referees should start to use
the signal immediately.

It is critical to use your voice
on all decisions. Even more so
with new signals.

Verbal support!
